

**VOTE**

**Gwendolyn Winfrey-Spivey  
for Classified Support Professional  
Representative**

Prior to becoming an employee in Aldine Independent School District, I worked in Corporate America for over 25 years with several Fortune 500 companies. During this time I gained experience with implementing new projects and working with stakeholders. The position as project coordinator required me to be a liaison between the company and various stakeholders. With this experience I am prepared to continue to be a liaison between Aldine AFT, Aldine ISD and our members. My experience demonstrates passion, encouragement and support for others.

I have been with the Aldine Independent School District since June, 2015. In my first role within the district I served as the Secretary in the Special Education Department. In my current role I serve as the campus Registrar.

As a member of Aldine AFT for over 3 years, I'm running for change, because I have seen the difficulties and challenges that paraprofessionals, support staff and professional staff face in the workplace.

My goal is to ensure that your voices are heard and your ideas are brought forth and discussed with passion.

I have been an active member of Aldine AFT. During my time I have participated in many roles and events.

- I have served as the campus Building Representative
- Assisted with the COVID Relief efforts
- Member engagement and recruitment
- Region 4 drive-by event

My vision is to empower our members and be a bridge for ALL members. We will work together as a team to ensure transparency of our organizational management.

On a personal note: My father was a union representative for many years. Therefore, I understand the importance of a union and want to help and support our members to continue to build a strong union.

It's an honor to have been nominated and have the opportunity to run for this position.

Please consider voting for CHANGE and for me as your  
Classified Support Professional Representative.
